BE IT RESOLVED BY THE COMMITTEE ON RULES OF I
MINA'TRENTAI DOS NA LIHESLATURAN GUÅHAN:

WHEREAS, the American Society for Clinical Pathology (ASCP) announces
the celebration of “National Medical Laboratory Professionals Week,” from April 22
to April 26, 2013, as a time of recognition for medical laboratory personnel, and a
chance to recognize and honor the important field and the significant contributions of
the profession to the health care community; and

WHEREAS, medical laboratory professionals often work behind the scenes,
where few people know about the critical testing they perform in the laboratories
every day; and

WHEREAS, this national event is a chance to honor the more than 300,000
medical laboratory professionals throughout the United States who perform and
interpret more than 10 billion laboratory tests in the nation every day; and

WHEREAS, in Guam, our medical laboratory professionals consist of
pathologists, medical technologists, medical laboratory technicians, laboratory
assistants, phlebotomists, and cytotechnicians; and

WHEREAS, these professionals are crucial to determining the accuracy of
results and diagnosis of the patient’s health. They are responsible for blood and other
specimen collection, processing, and transport of clinical/human specimens for
testing. In addition, they are also responsible for testing tissues, blood samples, urine,
and other body fluid samples, in different laboratory departments. These departments
include Blood Bank, Histology, Anatomic Pathology, Hematology, Urinalysis,
Microbiology, Serology, Immunology, and Parasitology; and
WHEREAS, the responsibilities of medical lab personnel in testing samples also include confirming the presence, or assisting in the diagnosis, of infectious diseases, including hepatitis, tuberculosis, influenza, and other diseases prevalent to our island community; and

WHEREAS, many of these diseases are non-communicable diseases that continue to plague our island community. Among these includes diabetes, hypertension, and lupus, as well as various types of cancer; and

WHEREAS, with the expertise and presence of medical laboratory professionals on our island, our physicians and the health community are able to combat and prevent the diseases that affect the people of our island; now therefore, be it

RESOLVED, that the Committee on Rules of I Mina’Trentai Dos Na Liheslaturan Guåhan does hereby, on behalf of I Liheslaturan Guåhan and the people of Guam, recognize and commend medical laboratory professionals on the celebration of “National Medical Laboratory Professionals Week” during the week of April 22 to April 26, 2013, with the theme, “Laboratory Professionals Get Results”; and does further extend a warm Un Dångkolo Na Si Yu’os Ma’åse’ to all medical laboratory personnel for the invaluable role they continue to play in the health care of the people of our island community; and be it further
