Subject: Korean firms approved by the FDA regarding test kits

To: <speaker@guamlegislature.org>

Dear Madamn Speaker:

Good morning! Thank you for your interest in Korean makers to supply test kits regrading COVID-19!

Yes! Among 37 Korean makers to supply test kits, one company(OSANG Healthcare) got an official approval and two companies(SolGent and SD Biosensor) received a preliminary approval respectively. Accordingly, these companies signed contracts with the U.S. Federal Emergency Management Agency to export their 600,000 COVID-19 tests kits.

Please see the attached file of COVID-19 tests kits authorized for exports! These three makers are in red color. I think you can get more information through direct contact with these compani

I hope that this information will help Guam be free of COVID-19 as soon as possible.

Sincerely,

Lim Hee-soon

Head of Mission

Korean Consulate
