COMMITTEE REPORT

ON

BILL NO. 2 (LS)

**“AN ACT TO AMEND §4109 (A) OF ARTICLE 1, CHAPTER 4, 4
GCA, TO MAKE MEMBERS OF I LIHESLATURAN GUÅHAN
INELIGIBLE FOR ANNUAL LEAVE.”**

I. OVERVIEW

The Executive Committee held a public hearing at 9 a.m. on January 20, 2005 in the Public Hearing Room, I Liheslaturan Guåhan. Public notice advertisement was given in the January 13 2005, edition of the Pacific Daily News (PDN), posted in the Government Meetings Section in the January 17, 2005 edition of the PDN, and a Public Notice Ad in the January 18, 2005 edition of the Marianas Variety, Guam Issue. A live broadcast of the public hearing appeared on Channel 61 that day (January 20, 2005).

Senators present at the public hearing were:

- Speaker Mark Forbes, Chairman
- Senator Benjamin J. F. Cruz
- Senator Mike Cruz, M.D.
- Senator Lawrence F. Kasperbauer, Ph.D., Member
- Senator Jesse A. Lujan
- Senator Ray Tenorio
- Senator Judith T. Won Pat
- Vice Speaker Joanne M.S. Brown, Member
- Senator Frank B. Aguon, Jr., Member
- Senator Robert Klitzkie, Member
- Senator Adolpho B. Palacios, Sr., Member

II. SUMMARY OF TESTIMONY

No oral or written testimonies on Bill No. 2 (LS) were presented to the Committee.

The Bill was read by Speaker Mark Forbes for the record and he provided a synopsis of the bill's intent.

III. FINDINGS AND RECOMMENDATION

The Executive Committee finds that Bill No. 2 (LS) would eliminate the accrual of annual leave and the payment of lump sum leave at the end of each legislative term for senators in the legislative branch of government. Savings attributable to this measure could be as high as one hundred and fifty thousand dollars (\$150,000) per term and funds saved could be put to better use. The Committee finds that in an audit of the Legislature conducted at the end of the 23rd Guam Legislature, the Office of the Inspector General of the US Department of the Interior determined that the accrual of annual leave by Senators and the payment of lump sums at the end of each term to Senators who were re-elected was a practice that should cease. The Committee notes that this lump-sum payment system is unique to the Legislature, and differs substantially from the practices of other branches. The Committee notes that Senators do not have a clearly recognized system available to them for the reasonable claiming and consumption of annual leave accrued. The Committee notes that this results in most Senators retaining all leave earned. It is noted that Senators are currently ineligible for sick leave, and that Bill 2 would simply conform the practice with respect to annual leave to the already established senatorial ineligibility for sick leave. The Committee notes further that Senators are compensated in installments without recourse to the number of hours worked in a pay period, making the accrual of annual leave without purpose.

Accordingly, the Executive Committee, to which Bill No. 2 (LS) was referred, does hereby submit its findings and recommendations to I Mina' Bente Ocho Na Liheslaturan Guåhan **TO DO PASS BILL NO. 2 (LS)**, "An act to amend §4109 (A) of Article 1, Chapter 4, 4 GCA, To make members of I Liheslaturan Guåhan ineligible for annual leave."

Minor volcanic haze, acid rain over islands

By Haidee V. Eugenio
Variety News Staff

SAIPAN — Residents of Saipan and Tinian are strongly urged to take precautionary measures and avoid prolonged outdoor exposure not only due to ash fall, but also because of minor volcanic haze and rainwater mixed with sulfur gases coming from the erupting Anatahan volcano.

The government yesterday expanded its health advisory to include a volcanic haze alert.

North winds are expected through at least today.

This, according to the Emergency Management Office, will continue to bring suspended volcanic dust and sulfur gases from Anatahan to the nearby islands.

Anatahan is located just about 120 km. north of Saipan.

Tropical storm Kulap, which passed east of the Marianas, as well as a strong cold front passing north of the Marianas have been impacting the wind direction for days now — resulting in Anatahan's ash plume reaching Saipan and Tinian.

EMO said the volcanic haze alert for Saipan and Tinian is extended until today.

Rudolfo M. Pua, director of EMO, yesterday said residents need to be on watch as the haze alert may be extended again, depending on the wind direction.

"We are closely monitoring the wind movement, so we can inform the public and protect the health of everyone," he said.

Pua noted that while the U.S. Geological Survey said there is no threat of "significant" volcanic smog or vog and acid precipitation, the islands have already been seeing "minor" volcanic haze, ash fall and acid rain.

All these, he said, prompted EMO and the Department of Public Health to update the public health advisory that was first issued on Saturday.

Yesterday, EMO and Public Health issued the "volcanic haze and ash health advisory."

Volcanic dust and sulfur gases, according to EMO and

Public Health, may appear like a hazy film over the sky and cause difficulties.

"If volcanic particles are visible or the odor is detectable, residents are urged to report the information to EMO," the advisory partly reads.

But as early as Sunday, residents have been aware of a "fairly strong sulfur" smell reportedly from Anatahan, said public health medical director Dr. Richard Brostrom.

Carlos Salas, executive director of the Commonwealth Ports Authority, meanwhile, said he has not received reports of any airline that diverted or canceled flights due to the volcanic haze and ash fall.

What to do
Residents with serious lung problems like asthma should avoid prolonged outdoor air exposure or exertion during the time that ash is present in the air.

"Stay indoors until local health officials advise that it is safe to go outside," EMO and Public Health said.

difficulties, increased susceptibility to respiratory ailments, watery eyes, sore throat, flu-like symptoms, and general lack of energy — are routinely reported to health officials.

Residents are also urged to protect their water source from falling volcanic ash.

This includes closing and covering water cisterns and turning off roof-collection systems.

Public Health said it is not safe to drink water that has been collected from rainfall during a volcanic eruption.

Shriners medical team to provide free services

By Gerardo R. Partido
Variety News Staff

HAGATNA — A medical team from the Shriners Hospital for Children in Hawaii will be providing free consultative services for island children with special health care needs.

The medical clinic, to be conducted with the cooperation of the Department of Public Health and Social Services (DPHSS), will be held at the public health facility in Mangilao from Jan. 21-27.

The Shriners medical team will be seeing patients under 18 years of age and will provide consultative services and follow-up visits to children with special health care needs, including those afflicted with deformities, disease, and injuries involving the bones, joints, and muscles.

Staffers from DPHSS' Maternal Child Health Program and Bureau of Family Health and Nursing Services will also be on hand to help out.

Patients will be seen by appointment only and interested parties are advised to contact Arlean Kloppenburg at 735-7295 or Terry Aguon at 735-71687.

New patients are required to obtain a referral and a medical summary from their private physician, an updated shot record, a copy of their birth certificate, and a copy of their insurance card.

Patients are also reminded to provide x-ray and/or laboratory results as previously instructed.

X-ray and laboratory orders can be picked up at the DPHSS medical records office in Mangilao.

Investors pledge \$5M in initial investments to start up medical school

By Gemma Q. Casas
Variety News Staff

SAIPAN — The Filipino-American investors planning to put up a private medical school on Saipan pledged start-up capital of at least \$5 million to begin their project.

In their proposal submitted to the State Board of Regents, the proponents of the Loyola Medical College Foundation Inc, which seeks to establish the Loyola Health Science College said they are infusing \$5 million over a period of five years in equipment, classrooms, laboratories and facilities for faculty and a dormitory.

Their proposed facilities should be able to accommodate their initial target of 500 students, mostly from Southeast Asia including the Philippines, where even professional doctors are switching to nursing in

hopes of finding greener pasture overseas.

Dr. Johnny Fong, the principal proponent, said their project should be able to bring in additional revenues for the cash-strapped government.

"The Loyola Health Science College shall bring a multitude of students and their families to the CNMI. This brings about rental income, sales revenue, added taxes, new offices and apartment buildings.... After renting for a period of two to three years, the Loyola Health Science College shall build its own permanent college facilities. This will generate income for new construction, employment and taxes for the CNMI," said Fong in the proposal.

Loyola's proposed school is envisioned to offer a two-year Associate in Arts degree in nursing, and a full four-year degree

in Doctor of Medicine, Doctor of Pharmacy and Doctor of Dentistry.

Its focus is to educate and train quality health professionals, particularly nurses, because of the great demand for such throughout the United States.

"The opportunity to offer a U.S. type two-year program in nursing to supply the estimated shortage of 150,000 trained nurses, for the USA market over the next 5 to 10 years presents a very interesting challenge that merits a focused effort," said Fong.

Acting as consultant, former Philippine Consul General to the Northern Marianas Julia Heidemann, now a retired ambassador, accompanied Fong, his wife, Dr. Grace Fong and businessman Gerardo Borromeo to discuss their project proposal with key local officials.
