In re: Bill no. 11 (LS) – “An Act To Add A New Item (28) & (29) To Item (K) Of § 26203 Of Title 11, Guam Code Annotated Relative To Exempting The Wholesale Of Telecommunication Services And Off-Island Sales From Gross Receipts Taxes.”

Dear Senator Calvo:

While the Department of Revenue & Taxation (DRT) recognizes that these proposed exemptions may stimulate growth in the Telecommunications Industry, DRT feels that this proposal be postponed and reconsidered when the Government's financial situation improves.

It should be noted that § 26203(K)(22) of Title 11, G.C.A. already exempts businesses who are engaged in the business of wholesaling. However, the general rule of thumb for this provision refers to sales of tangible property.

As shown on the attached analysis using 2002 and 2003 data, the Government would have lost approximately \$5.25 million dollars in those years alone (However, this data does not break down service or the sale of tangible goods and is not all inclusive of the entire industry). As the industry grows with new competitors and the privatization of Guam Telephone Authority, millions more could potentially be lost each year.

Pertaining to the language of this bill, Section 26203(k)(28) and (29) already exist as subsections for other exemptions.

Should this proposal become law, DRT will make the necessary changes in both policy and form as deemed necessary to effectively administer this Act.

Sincerely,

Artemio B. Ilagan
Director

CHARLES H. TROUTMAN
CONSUMER COUNSEL -
DEPUTY ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL

February 6, 2005

Honorable Edward J.B. Calvo
Chairman
Committee on Finance, Taxation and Commerce
28th Guam Legislature
Hagåtña, Guam

Dear Mr. Chairman,

I wish to take this opportunity to present written testimony regarding Bill 11, which would exempt certain wholesale activities of the new GTA from the Gross Receipts Tax.

Generally, I believe that we cannot afford any more exemptions from the GRT at a time when revenues are short and needs great. The Government cannot function when it voluntarily reduces its revenue below a functioning level.

Apart from this. Bill 11 poses problems. We need to do a general overhaul of the GRT and its exemptions in view of the increased military construction and the military's increasing use of private contractors. We need to recognize that Guam is now, or we hope it to be, a center of commerce in this part of the world. We need to examine what are the current possibilities of taxation under federal law – which have been changing since the GRT was first enacted over 50 years ago. While the federal law has been somewhat relaxed, the GRT has not changed. We need to look at the potential for revenue before we look to give it away.

On the specifics of Bill 11, item 29 is open to many and possibly discriminatory, interpretations. What does it mean that the "customers" are outside of Guam. If these "customers" are purchasing the services for use in, Guam, then there should be no exemption and this would be discriminatory against local providers who are in direct competition. What sales are we talking about that are not covered by item 28? This needs clarification.

This Legislature should postpone giving individual exemptions and work to remodel our tax system, and even if we keep the GRT, modernize it.

Sincerely yours,

CHARLES H. TROUTMAN
Deputy Attorney General

Senator Edward J.B. Calvo ACKNOWLEDGEMENT RECEIPT

May 3, 2005

The Honorable Edward J. B. Calvo
Chairman, Committee On Finance,
Taxation & Commerce

Dear Mr. Chairman:

I have read the findings in the Fiscal Note on Bill No. 11 (LS) and instantly became amused. The Note mentions that in FY2003, GTA had \$42,855,794 in audited gross revenue. If the GTA had been subject to Gross Receipt taxation, the Note says, then they would have paid approximately \$1.7 million in GRT's. The same note also says that if Bill 11 passes, it would cost the Government of Guam \$5.25 million.

My amusement comes from the common knowledge that GTA is the only wholesaler of telecommunication services on the island. Therefore it is impossible for GTA to get a \$5.25 million exemption. Of the \$43 million in GTA revenue, over 75% of it comes from direct-to-consumer sales that would not be subject to the exemption proposed in Bill No. 11. For GTA to get a \$5.25 million exemption, it would have to wholesale at least \$110,500,000 in telcom services to its competitors. Guam's current population base cannot support that amount of wholesaling.

Companies such as Guamcell, IT&E, Iconnect, Hafatel, MCI, TNI, Eccomm and others all rely on services provided by GTA to bring long-distance and internet services to their customers. Companies such as AAA and Verizon resell cellular services. Each one of these companies saw at least a 4% increase in their GTA bills as this new cost of doing business has been passed on to these re-sellers. The compounding affect of the GRT in the pricing of GTA's competitors will make it nearly impossible for any company to compete with GTA for long-distance and internet services.

I sincerely ask that you to take a fresh look at Bill 11 and at the implications of doing nothing may have on the competitive telcom industry on Guam. The true risk to GovGuam revenues is that the current GRT structure may remove competitors and from the long distance and internet industries. If that happens we lose not just the wholesale tax, that BBMR talks about, but the retail tax as well.

I respectfully request and urge you to report out Bill No. 11 (LS) in time for the next session.

Senator Edward J. B. Calvo

Bill No. 11 Issues

Wholesaling:

GTA is the only present wholesaler of Telecommunications Services on Guam. Telecommunications services that are wholesaled through GTA include:

- Internet Access for Dial-up accounts
- DSL lines
- Data lines such as T-1 lines
- Long distance access
- Pay telephone access
- TDMA cellular: AAA Cellular and ECCOMM

History:

Prior to privatization of GTA none of these services were subject GRT and none for GTA's revenues were relied upon to formulated the FY 05 Budget of the Government of Guam. Prior to Privatization, GTA was prohibited from engaging in Internet and long distance services. As an Incumbent Local Exchange Carrier (ILEC), GTA is required to sell telecommunications services at wholesale rates (essentially at cost) to companies that it under the provisions of the Telecommunications Act of 1996. Such rates do not include state and local excise taxes, fees or other governmental charges. Following privatization in January of 2005, all GTA customers including resellers saw their bills fro GTA increase by 4% as a result of the GRT.

ILEC Competition:

Since privatization, GTA, Guam's only ILEC has begun actively marketing cellular phone and long-distance services. The additive affect of the GRT on the billings that GTA send to its competitors have resulted in an increased cost of doing business for all of GTA's competitors. At the same time, GTA only is required to pay GRT on its retail sales and does not have to pay it at the wholesale level since it technically sells such services to itself.

Affects on the Government of Guam:

The wholesale GRT on GTA is a new revenue stream that did not exist prior to January 1, 2005. The result of this situation that if GTA and its competitors operated at similar efficiency levels, that no competitor will be able to match GTA in terms of pricing because of the added GRT wholesale tax. Thus long-distance, internet and cellular revenues of GTA's competitors will decline. This decline means a drop in the tax-base of GTA's competitors and lower GRT's and income taxes to the Government of Guam. As such GTA's competitors will gradually leave the industry.

What can be done to mitigate the problem?

There are several options that the Government can try to alleviate the problem that include:

- Controlling ILEC's retail level pricing to prevent them from undercutting competitors
- Charge ILEC's higher GRT rates than competitors
- Control ILEC's pricing at the wholesale level to 4% below costs
- Exempt resellers of GTA's services from retail GRT
- Exempt ILECs from wholesale GRT

Assumptions

ABC Tel is an incumbent local exchange carrier (ILEC) and is required to sell wholesale telecommunications services to its competitors at cost.

All telecommunications companies ILECs and CLECs (Competitive local exchange carriers) are required to pay 4% of all (100%) their gross receipts in taxes to the local government

Incumbent Local Exchange Carrier (ILEC) as a Retailer

- 1** The total monthly cost for ABC Tel (ILEC) to create a one-mile T-1 data line is **\$100** (manufacturing costs).
- 2** ABC Tel (ILEC) retails the one-mile T-1 data line to Gadao Bank for \$110 monthly.
- 3** On its sale to Gadao Bank, ABC Tel (ILEC) pays \$4.40 in GRT and \$2.00 in marketing costs.

Profit Calculation

Selling Prices:		\$110.00
Less Expenses:		
Manufacturing:	\$100.00	
Marketing:	2.00	
GRT	4.40	
Total Expenses:		<u>\$106.40</u>
Net Profit: (Loss)		\$ 3.60

Incumbent Local Exchange Carrier (ILEC) as a Wholesaler

- 1** The total monthly cost for ABC Tel (ILEC) to create a one-mile T-1 data line is **\$100** (manufacturing costs).
- 2** ABC Tel (ILEC) wholesales the one-mile T-1 data line to XYZ Tel (CLEC) at cost for \$104 monthly (Includes GRT cost).
- 3** XYZ Tel (CLEC) retails the one-mile T-1 data line to Tataga Insurance for \$110 monthly.
- 4** On its sale to Tataga Insurance, XYZ Tel (CLEC) pays \$4.40 in GRT and \$2.00 in marketing costs.

Profit Calculation

Selling Prices:		\$110.00
Less Expenses:		
Paid to ABC:	\$104.00	
Marketing:	2.00	
GRT	4.40	
Total Expenses:		<u>\$110.40</u>
Net Profit: (Loss)		(\$ 0.40)
