2. **Sonny Ada, Chairman, Board of Regents of University of Guam, In Favor of the Bill, Written Testimony**

**II. SUMMARY OF TESTIMONIES**

Interim Chairman Adolpho B. Palacios, Sr. called the Committee on Labor, the Public Structure, Libraries, and Technology to order at 9:07a.m.

**Chairman Palacios:** At this point, I would like to call up the only sign-up, Dr. Helen Whippy, from the University of Guam. Could you come up please? The author of the bill, the speaker, is not present. She is off-island at this time. However, the bill will be heard this morning and most likely there will be a mark-up meeting on this one more time upon return and we will share the testimony with her. (Gave an overview of the

bill) The amendment here is to create a new section dealing only with the University of Guam with the provision that the Board of Regent determines the scheduling for the taking of sabbatical leave and the determination of eligibility of UOG employees. I recognize at this time, Dr. Helen Whippy.

**Dr. Helen Whippy:** I am the Senior Vice President of academic and student affairs at the University of Guam. I am here on behalf of the UOG President who is off-island. UOG appreciates the legislature's recognition of its academic employees. UOG supports this bill with the following revisions on page 2, lines 20 to 21; that "satisfactory teaching service" be changed to "satisfactory academic service." The University respectfully requests that this revision be made to Bill 328-30 otherwise the University supports the bill as it is currently written.

**Chairman Palacios:** It appears that the new provision would be left up to the Board of Regent to determine eligibility and the scheduling of the taking of sabbatical leave. What led to that idea and to the desire to make that amendment?

**Dr. Helen Whippy:** In 1981, the original law, the GCA was put in place. In 1985, UOG was exempt from it. In 1998, there was another law that removed that exemption but the university didn't notice it so we had our own sabbatical leave policy since 1985. Instead of paying 100% of salary we pay 66% and use the other one third to help get placement for the person. It is much sounder fiscally rather than leave for an entire year. Last year, I noticed that we no longer had an exemption, we asked the board to approve revision to the 1981 one. Because of that I haven't been able to approve any sabbaticals because it would be fiscally irresponsible of me to do so. Go back to the way we were. We have our old policy which worked quite well for many years.

**Chairman Palacios:** Can that need be addressed by the Board of Regents?

**Dr. Helen Whippy:** It is currently in the legislation. It requires a 100% pay out of your salary for one year.

**Chairman Palacios:** So the Board of Regent cannot change that even if they want.

**Dr. Helen Whippy:** That is public law. So we are asking the senators to change that public law and take us out of the 100%.

**Chairman Palacios:** The Board of Regents, no member appeared here. What is your observation with respect to how they feel about this?

**Dr. Helen Whippy:** The Board of Regent is firmly in control of the governance of the university and they support this completely. In fact they requested it.

**Chairman Palacios:** It would be good if they submit some kind of testimony even a half page saying that they support this. It would be good to have that on record. If I were an academic employee at the UOG, if I were to evaluate this, I would say that this in some way would adversely affect my benefit.

**Dr. Helen Whippy:** We told the union at 100% we are not able to fund anyone. We have really strict rules. You must be a tenured professor. Our professors are too busy to take it.

**Chairman Palacios:** The policy would be to go to the Regent and convince the regent so the regent is empowered to debate those things. Please make sure that the committee receives some kind of endorsement from the Board of Regent. There is no other sign-up for this. Bill 328-30 (COR) is duly heard at this time.

Chairman Palacios concluded the hearing and requested that written testimony be submitted within the next ten (10) days. He adjourned the hearing at 9:20a.m.

### III. WRITTEN TESTIMONIES

**Re: Bill 328-30 Testimony**

Buenas, Mr. Chairperson, Mr. Vice-Chair and Senators:

My name is Helen Whippy and I am the Senior Vice President of Academic and Student Affairs at the University of Guam. I am here today on behalf of the President of the University of Guam. Thank you for the opportunity to provide testimony on Bill 328-30, An Act to Amend Section 4110 of Chapter 4 of Title 4 of the Guam Code Annotated and to Add a New Section 4110.2 of the Same, Relative to Sabbatical Leave at the University of Guam.

The University appreciates I Mina'Trenta Na Liheslaturan Guahan's recognition of its academic employees as it pertains to sabbatical leaves. The University supports Bill 328-30, with the following revision on page 2, lines 20-21: that "satisfactory teaching service" be changed to "satisfactory academic service". This is because the University's mission of *Ina, Diskubre, Setbe – To Enlighten, To Discover, To Serve* does not limit academic employees to teaching service only. Academic employees may also engage in some combination of research or outreach as their primary role or to complement the teaching component.

The University respectfully requests that this revision be made to Bill 328-30. Otherwise, the University supports Bill 328-30 as currently written.

Thank you for your time and consideration of the University and for your support of the University's academic employees as it pertains to sabbatical leaves in Bill 328-30.

Sincerely,

Saturday's quake was centered offshore an estimated 21 miles underground in a relatively unpopulated area while Haiti's tectonic may-

The U.S. Geological Survey says eight Haitian cities and towns — including this capital of 3 million — suffered "violent" to "extreme" shaking in last month's 7-magnitude

epicenter, the Chilean quake was 501 times stronger. But energy dissipates rather quickly as distances grow from epicenters — and the ground beneath Port-au-Prince is less stable by comparison and "shake, like jelly," says University of Miami geologist Tim Dixon.

on the planet. Megathrusts occur when one tectonic plate dives beneath another. Saturday's tremor unleashed about 50 gigatons of energy and broke about 340 miles of the fault zone, according to the U.S. Geological Survey's National Earthquake Information Center.

If the magnitude holds, it will tie with the 1906 offshore Ecuador quake as the fifth largest since 1900.

"We call them great earthquakes. Everybody else calls them horrible," said USGS geophysicist Ken Hudnut. "There's only a few in this league."
