Mary Camacho Torres

AN ACT TO *ADD* NEW §§ 63101(cc), 63117.1, 63117.2, AND 63117.3 TO ARTICLE 1 OF CHAPTER 63, TITLE 5, GUAM CODE ANNOTATED, RELATIVE TO THE DEVELOPMENT OF A COMMUNITY-BASED FISHERIES MANAGEMENT STRATEGY; TO BE KNOWN AND CITED AS THE “MARINE CONSERVATION ACT OF 2018.”

1 **BE IT ENACTED BY THE PEOPLE OF GUAM:**

2 **Section 1. Legislative Findings and Intent.** *I Liheslaturan Guåhan* finds
3 that the threats upon our coral reefs, marine ecosystems, and precious resources
4 are diverse and vary in scale. Such threats range from local fishing pressures and

1 human and natural pollution impacts, to global drivers of climate change and
2 ocean acidification.

3 *I Liheslaturan Guåhan* further finds that such threats, if gone unchecked
4 and without proper mitigation, pose great harm to marine life, investments in
5 critical infrastructure, defenses, and the lives of the people who live in and rely
6 upon our coastal areas.

7 *I Liheslaturan Guåhan* further finds that such threats are too great to be
8 managed and addressed by any single agency of the government of Guam. *I*
9 *Liheslaturan Guåhan* acknowledges that marine resources are not easy to fence
10 off, monitor and regulate, and that such resources are common property and
11 available to all.

12 *I Liheslaturan Guåhan* resolves that the protection and management of
13 these resources requires the support and cooperation of the local community
14 through a participatory approach grounded in community-based management to
15 address the full range of biophysical, socioeconomic, and governance issues
16 facing our coastal villages.

17 **Section 2.** This Act *shall* be known and may be cited as the “Marine
18 Conservation Act of 2018.”

19 **Section 3.** A new Subsection (cc) is hereby *added* to § 63101 of Article
20 1, Chapter 63, Title 5, Guam Code Annotated, to read:

21 “(cc) Community-Based Fisheries Management - a system in which
22 fishermen and their communities exercise primary responsibility for
23 stewardship and fisheries management, to include taking part in the decision-
24 making on all aspects of fisheries management, such as harvesting, access,
25 compliance, research, and marketing.”

1 **Section 4.** A new § 63117.1 is hereby *added* to Article 1 of Chapter 63,
2 Title 5, Guam Code Annotated, to read:

3 “§ 63117.1. **Purpose of Community-Based Fisheries Management.**

4 The purpose of a community-based fisheries management strategy is to
5 empower coastal resource communities to protect, preserve, manage, and
6 conserve aquatic life, habitat, and marine communities and ecosystems, and
7 to ensure the health, welfare and integrity of marine resources for current and
8 future generations through a more holistic ecosystem-based management
9 approach, which *shall* be consistent with this Chapter and 9 GAR Chapter 12
10 (Fishing Regulations).

11 The Director of the Department of Agriculture, Mayors, and Municipal
12 Planning Councils *shall* have the authority to designate community-based
13 fisheries managed areas and develop fisheries management plans, along with
14 rules and regulations subject to the Administrative Adjudication Law, 5 GCA
15 Chapter 9. Such rules and regulations may be revisited annually for any
16 revisions to be made through the Administrative Adjudication Law process.”

17 **Section 5.** A new § 63117.2 is hereby *added* to Article 1 of
18 Chapter 63, Title 5, Guam Code Annotated, to read:

19 “§ 63117.2. ***Humatak* Fisheries Managed Area and Plan.**

20 The Director the Department of Agriculture and the Director of the
21 Bureau of Statistics and Plans *shall* provide the necessary technical assistance
22 to the Mayor and Municipal Planning Council (MPC) of *Humatak* to designate
23 *Humatak* Bay, inclusive of adjacent reef areas as identified by the Mayor and
24 the MPC of *Humatak*, as a community-based *Humatak* fisheries managed
25 area, as well as for the development of a community-based *Humatak* fisheries
26 management plan, consistent with the *Humatak* Revitalization Plan, the

1 Southern Development Master Plan, and any other development plan
2 approved by the community of *Humatak*. The plan *shall* be due within twelve
3 (12) months upon enactment. The plan and any resulting rules and regulations
4 *shall* be in accordance with the Administrative Adjudication Law (5 GCA
5 Chapter 9) to carry out the provisions of this Section. Such rules and
6 regulations may be revisited annually for any revisions that need to be made
7 through the Administrative Adjudication Law process.

8 In the event a final plan is not produced within twelve (12) months following
9 the enactment of this Section, an interim report *shall* be produced at the end of said
10 twelve (12) month period, and every six (6) month period thereafter. The interim
11 report *shall* be transmitted to the Speaker of *I Liheslaturan Guåhan* (the Guam
12 Legislature) and the Bureau of Statistics and Plans.”

13 **Section 6.** A new § 63117.3 is hereby *added* to Article 1 of Chapter 63, Title
14 5, Guam Code Annotated, to read:

15 **“§ 63117.3. No Effect to Existing Designated Marine Preserve Areas on**
16 **Guam.**

17 Nothing in §§ 63117.1 or 63117.2 shall allow for any changes to
18 existing designated Marine Preserves on Guam, as provided in 9 GAR
19 Chapter 12.”

20 **Section 7.** Any fisheries management plan authorized by this Act *shall*
21 acknowledge that the Department of Agriculture and the Guam Police Department
22 *shall* have full authority to enforce the laws of Guam within community-based
23 fisheries.

24 **Section 8.** The fisheries management plans authorized by this Act *shall*
25 specify who shall be granted access to monitor fish and coral stock, or assess the
26 success of management goals in other ways, and *shall* provide that all data will be

1 shared with the relevant Municipal Planning Council, the Department of Agriculture,
2 the Bureau of Statistics and Plans, and the University of Guam Marine Lab.

3 **Section 9. Severability.** If any provision of this Act or its application to
4 any person or circumstance is found to be invalid, or contrary to law, such invalidity
5 *shall not* affect other provisions or applications of this Act that can be given effect
6 without the invalid provision or application, and to this end the provisions of this
7 Act are severable.

8 **Section 10. Effective Date.** This Act *shall* become effective upon
9 enactment.
