Re: Bill No. 70-35(LS) – An Act to Add a New Article 5 to Chapter 51 of Division 2, Title 10, Guam Code Annotated, Relative to Creating a Task Force to Gather Information and Create Goals for Policy Concerning Used Oil Management

Dear Madam Speaker:

It is urgent that our island quickly addresses the management of used oil. I appreciate the Legislature’s dedicated attention to this issue. The substance of this bill is timely in that follows my Administration’s success towards the ending of the receivership over the government of Guam’s solid waste services.

We must be vigilant in protecting our environment. We must not ignore the consequences of our actions and pay attention only when the federal government intervenes. Instead, we should do as this bill proposes: gather our subject matter experts and preemptively collaborate towards the best solution.
Bill No. 70-35(LS), which I have signed as Public Law 35-24, is the standard of collaboration that is needed to tackle our island's issues. I will promptly appoint my designee and a member of the general public to serve in this advisory task force.

Senseremento,

LOURDES A. LEON GUERRERO
Maga'hågan Guåhan
Governor of Guam
