HONORABLE TINA ROSE MUÑA BARNES
Speaker
I Mina’irentai Singko Na Liheslaturan Guåhan
Guam Congress Building
163 Chalan Santo Papa
Hagåtña, Guam 96932

Re: Substitute Bill No. 86-35 (COR) – An Act to Add New §§ 61541(f) and 61547 to Subarticle 5 of Article 5, Chapter 61, Title 21, Guam Code Annotated, Relative to Exterior On-Premise Signage in the Tumon Bay H Resort-Hotel Zone and Defining and Regulating Digital Signs

Dear Madame Speaker:

I am signing this measure into law because I recognize the level of painstaking compromise achieved by property owners and those who work to preserve the unique beauty of Guam. Integral to our economic success is the principle that everyone has a right to use their property for the highest and best use permitted under law. And, as the world changes; as new technologies advance the way private industry promotes itself to a free market, our law too will change.

I will never surrender what is beautiful about Guam to visual clutter, but I will allow responsible uses of private property—especially where it advances our economy and make us more competitive. I appreciate the zoning limitations placed in this measure and the serious approach the Legislature used to protect against distracted driving.

///

///
In recognition of the above, I am glad to sign Substitute Bill 86-35 (COR) into law as *Public Law No. 35-52.*

*Sensereamente,*

[Signature]

**LOURDES A. LEON GUERRERO**  
*Maga’hågan Guåhan*  
Governor of Guam

AN ACT TO ADD NEW §§ 61541(f) AND 61547 TO SUBARTICLE 5 OF ARTICLE 5, CHAPTER 61, TITLE 21, GUAM CODE ANNOTATED, RELATIVE TO EXTERIOR ON-PREMISE SIGNAGE IN THE TUMON BAY H RESORT-HOTEL ZONE AND DEFINING AND REGULATING DIGITAL SIGNS.

BE IT ENACTED BY THE PEOPLE OF GUAM:

Section 1. Legislative Findings and Intent. I Liheslaturan Guåhan finds that Guam’s sign laws do not address signage in the Tumon Bay H Resort-Hotel Zone, which is where most of the island’s tourism infrastructure exists. It is vital that
modern signage techniques be permitted, which are prevalent at competing tourist
destinations, while reflecting the scale and character of Guam's own attractiveness
as a destination for visitors.

This legislation does not authorize any bypassing of the process when it comes
to an entity going through the standard process of securing a building and occupancy
permit, prior to erecting an exterior sign. The legislation also focuses on exterior on-
premise signage, to avoid an overly abundant degree of signage in our tourism zones.

It is also vital to clearly define "digital signs" in the same capacity as identified
by the United States Signs Council (USSC), in its creation of the Model On-Premise
Sign Code, which establishes sign code regulations for various land uses, including
the number to be established, size, lighting, and location. This legislation defines the
characteristics of digital signs, as they are utilized in many other resort zones
nationally, while ensuring that they exist within the codes established on Guam.

Section 2. A new § 61541(f) is added to Subarticle 5 of Article 5, Chapter
61, Title 21, Guam Code Annotated, to read:

"(f) In the Tumon Bay H Resort-Hotel Zone, signs shall comply with
§§ 61541(b)(2)-(3), 61543, and 61544 of this Subarticle. No exterior signs
shall be erected, displayed or maintained, except for signs indicating the name
of a person, the type of business occupying the premises, or the name of the
building, or signs displaying messages appurtenant to the use of, products sold
on, or the sale or lease of, the property on which it is displayed, and for public
service announcements; provided, that:

(1) Signs shall be placed along on the building wall or behind
a window or clear covering on the building wall, shall not be higher
than the roof line of the building, and shall protrude no farther than
eighteen (18) inches from the wall to which they are attached."
(2) Except for electronic or other signs authorized by a Guam Land Use Commission variance prior to the enactment of this Act, individual signs shall not cover an area in excess of ten percent (10%) of the surface of the wall to which they are attached.

(3) Violations. Any person in violation of Subsections 61541(f)-(f)(2) of Chapter 61, Title 21, Guam Code Annotated, shall pay a civil penalty not to exceed One Thousand Dollars ($1,000) for each violation. If violation(s) are not corrected within ten (10) business days of receipt of a Notice of Violation from the Department of Public Works, such person shall be subject to an additional late action civil penalty not to exceed Three Hundred Dollars ($300) per day for each remaining violation. Failure to pay penalties and to rectify the violations may result in the termination or non-renewal of the digital sign permit. The Director of Public Works shall have the authority to waive parts or all of the late action penalty should the violator demonstrate a good faith effort to address the violation in a timely manner; provided, that such waiver is limited to no more than thirty (30) calendar days. All penalties recovered in any such action shall be paid into the General Fund."

Section 3. A new § 61547 is added to Subarticle 5 of Article 5, Chapter 61, Title 21, Guam Code Annotated, to read:

"§ 61547. Regulation of Digital Signs.

(a) Definitions.

(1) Animated sign means a sign employing actual motion, the illusion of motion, or light and/or color changes achieved through mechanical, electrical, or electronic means. Animated signs, which are
differentiated from changeable signs as defined and regulated by this
Section, include the following types:

(A) *environmentally activated animated signs* or
*devices* are motivated by wind, thermal changes, or other natural
environmental input, such as spinners, pinwheels, pennant
strings, and/or other devices or displays that respond to naturally
occurring external motivation;

(B) *mechanically activated animated signs* are
characterized by repetitive motion and/or rotation activated by a
mechanical system powered by electric motors or other
mechanically induced means;

(C) *electrically activated animated signs* produce the
illusion of movement by means of electronic, electrical, or
electromechanical input and/or illumination capable of
simulating movement through employment of the characteristics
of one (1) or both of the classifications noted below:

(i) *flashing* - animated signs or animated
portions of signs whose illumination is characterized by a
repetitive cycle in which the period of illumination is
either the same as or less than the period of non-
illumination. A cyclical period between on-off phases of
illumination exceeding four (4) seconds *shall not*
constitute flashing;

(ii) *patterned illusionary movement* - animated
signs or animated portions of signs whose illumination is
characterized by simulated movement through alternate or
sequential activation of various illuminated elements for
the purpose of producing repetitive light patterns designed
to appear in some form of constant motion.

(2) Changeable sign means a sign with the capability of
content change by means of manual or remote input, including the
following types:

(A) manually activated – changeable sign whose
message copy or content can be changed manually on a display
surface;

(B) electrically activated - changeable sign whose
message copy or content can be changed by means of remote
electrically energized on-off switching combinations of
alphabetic or pictographic components arranged on a display
surface. Illumination may be integral to the components, such as
characterized by lamps or other light-emitting devices; or it may
be from an external light source designed to reflect off the
changeable component display.

(3) Digital sign means an on-premise electrically activated
animated sign, changeable sign, illuminated sign, or Electronic
Message Center sign located in the Tumon Bay H Resort-Hotel Zone.
Digital signs are not environmentally or mechanically activated
flashing animated signs or devices.

(4) Electronic Message Center (EMC) sign means an
electrically activated changeable sign whose variable message and/or
graphic presentation capability can be electronically programmed by
computer from a remote location. EMCs typically use light emitting
diodes (LEDs) as a lighting source. Terms principally associated with
an EMC are:
(A) *display time* - the amount of time a message and/or graphic is displayed.

(B) *dissolve* - a mode of message transition accomplished by varying the light intensity or pattern, in which the first message gradually appears to dissipate and lose legibility with the gradual appearance and legibility of the second message.

(C) *fade* - a mode of message transition accomplished by varying the light intensity, where the first message gradually reduces intensity to the point of not being legible and the subsequent message gradually increases intensity to the point of legibility.

(D) *dynamic frame effect* - a frame effect in which the illusion of motion and/or animation is used.

(E) *frame-* a complete, static display screen.

(F) *frame Effect* - a visual effect applied to a single frame.

(G) *scroll* - a mode of message transition in which the message appears to move vertically across the display surface.

(H) *transition* - a visual effect used to change from one message to another.

(I) *travel* - a mode of message transition in which the message appears to move horizontally across the display surface.

(5) *Illuminance* means the amount of light falling upon a real or imaginary surface, commonly "light level" or "illumination," measured in foot candles (lumens/square foot) in the English System, and lux (lumens/square meter) in the SI (metric) system.

(6) *Luminance* means the light that is emitted by or reflected
from a surface, measured in units of luminous intensity (candela) per unit area (square meters in SI measurement units or square feet in English measurement units).

(7) **Multiple-faced sign** means a sign containing two (2) or more faces.

(8) **Off-premise business information** means commercial or noncommercial messages not appurtenant to the use of, products sold on, or the sale or lease of, the property on which it is displayed.

(9) **On-premise sign** means a sign erected, maintained or used in the outdoor environment, or visible from the outside environment, for the purpose of the display of messages appurtenant to the use of, products sold on, or the sale or lease of, the property on which it is displayed, and for public service announcements. For purposes of this Subsection, public service announcements are limited to factual information about public health and public safety as determined by the Department of Public Health and Social Services, the Guam Police Department, or the Office of Civil Defense.

(10) **Sign** means a device visible from a public place, whose essential purpose and design are to convey either commercial or noncommercial messages by means of graphic presentation of alphabetic or pictorial symbols or representations.

(11) **Sign copy** means the physical sign message, including any words, letters, numbers, pictures, and symbols.

(12) **Sign face** means the surface upon, against or through which the sign copy is displayed or illustrated, not including structural supports, architectural features of a building or sign structure, nonstructural thematic or decorative trim, or any areas that are
separated from the background surface upon which the sign copy is displayed by a distinct delineation, such as a reveal or border.

(A) In the case of panel or cabinet type signs, the sign face shall include the entire area of the sign panel, cabinet or face substrate upon which the sign copy is displayed or illustrated, but not open space between separate panels or cabinets.

(B) In the case of signs painted on a building, or individual letters or graphic elements affixed to a building or structure, the sign face shall comprise the sum of the geometric figures or combination of regular geometric figures drawn closest to the edge of the letters or separate graphic elements comprising the sign copy, but not the open space between separate groupings of sign copy on the same building or structure.

(C) In the case of sign copy enclosed within a painted or illuminated border or displayed on a background contrasting in color with the color of the building or structure, the sign face shall comprise the area within the contrasting background, or within the painted or illuminated border.

(b) Restrictions.

(1) Digital signs are authorized only in the Tumon Bay H Resort-Hotel Zone, and shall be subject to the provisions set forth in this Section.

(2) The Department of Public Works shall promulgate rules and regulations for digital sign permits in the Tumon Bay H Resort-Hotel Zone.

(3) Digital signs, as identified in this Section, shall be subject
to the Department of Public Works digital sign permit process and may
be erected and operated only after a building permit and an occupancy
permit are issued.

(4) It shall be unlawful to display off-premise business
information on a digital sign.

(5) It shall be unlawful to erect a flashing digital sign.

(6) Digital signs shall be properly maintained. The Building
Official of the Department of Public Works shall issue a Notice of
Violation to the permittee for any digital sign that is damaged or non-
functional. The permittee shall make necessary repairs within ninety
(90) days of notice.

(7) Digital signs shall be placed along on the building wall or
behind a window or clear covering on the building wall, shall not be
higher than the roof line of the building, and shall protrude no farther
than eighteen (18) inches from the wall to which they are attached.

(8) A digital sign authorized under this Section shall only be
placed on any building wall along Pale San Vitores Road or Gun Beach
Road that faces the road. Such digital sign shall not illuminate or shed
light onto the beach or ocean.

(9) Any permitted digital sign under this Section may be
illuminated at night.

(10) On-premise digital signs do not constitute a form of
outdoor lighting at night and are exempt from any other outdoor
lighting regulations that the Department of Public Works has adopted.

(11) Digital signs that are illuminated at night may not exceed
a maximum luminance level of seventy (70) foot candles, regardless of
the method of illumination.
(12) Digital signs that have external illumination, whether the lighting is mounted above or below the sign face or panel, shall have lighting fixtures or luminaries that are fully shielded.

(13) All illuminated digital signs must comply with the maximum luminance level of sixty-five (65) foot candles at least one-half (½) hour before Apparent Sunset, as determined by the National Oceanic and Atmospheric Administration (NOAA) of the U.S. Department of Commerce, for the specific geographic location and date. All illuminated digital signs must comply with this maximum luminance level throughout the night, if the digital sign is energized, until Apparent Sunrise, as determined by the NOAA, at which time the digital sign may resume luminance levels appropriate for daylight conditions, when required or appropriate.

(14) A digital sign shall not have a sign face exceeding twenty percent (20%) of the allowable signage area on the façade of the building, as prescribed by law or by a variance from the Guam Land Use Commission, except that in no case shall digital signage area exceed two (2) signs of one hundred sixty-five (165) square feet each.

(15) Digital sign emissions are prohibited. No digital sign which emits smoke, flames, visible vapors, particles, sound, or odor shall be permitted.

(16) Digital signs are prohibited from promoting obscene material, as defined in 9 GCA § 28.90.

(17) The Department of Public Works shall promulgate a fee schedule for digital sign permits based on its size.

(c) Statutory Interpretation. A digital sign shall be considered and deemed prohibited if it is not explicitly allowed in this Section.”
Section 4. The Guam Land Use Commission shall not grant a variance for electronic signs that exceed the size limits and the lumens in this Act, and shall not allow for audible digital signs.

Section 5. Severability. If any provision of this Act or its application to any person or circumstance is found to be invalid or contrary to law, such invalidity shall not affect other provisions or applications of this Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

Section 6. Effective Date. This Act shall be effective upon enactment.
