I MINA' TRENTAI SINGKO NA LIHESLATURAN GUÅHAN
2019 (FIRST) Regular Session

Bill No. 80-35 (WR)

Introduced by:

Amanda L. Shelton 
Clynt T. Ridgell 

**AN ACT TO AMEND § 8311 OF ARTICLE 3, CHAPTER 8,
TITLE 12, GUAM CODE ANNOTATED, RELATIVE TO
RAISING THE RENEWABLE PORTFOLIO STANDARDS OF
THE GUAM POWER AUTHORITY.**

2019 APR 10 AM 11:33

1 **BE IT ENACTED BY THE PEOPLE OF GUAM:**

2 **Section 1. Legislative Intent.** The renewable portfolio standards found in
3 § 8311 were set over 10 years ago by P.L. 29-62. Due to advancements in
4 technology, innovation, and the hard work of the employees of the Guam Power
5 Authority, the goal of 25% net electricity sales from renewable energy has nearly
6 been met, over 15 years before its target date of 2035. It is appropriate, then, to raise
7 our renewable portfolio standards to match our current capabilities, as we continue
8 to modernize our island.

9 It is the intent of *I Liheslatura* to further develop renewable energy production
10 through wind, solar, ocean thermal, wave and biomass resources, and decrease our
11 reliance on oil.

12 **Section 2.** § 8311 of Article 3, Chapter 8, Title 12, Guam Code Annotated
13 is hereby *amended* to read as follows:

14 **“§ 8311. Renewable Portfolio Standards.**

15 The Guam Power Authority shall establish a preliminary renewables
16 portfolio standard goal of:

17 (a) five per cent (5%) of its net electricity sales by December 31, 2015;

- 1 ~~(b) eight per cent (8%) of its net electricity sales by December 31, 2020;~~
2 ~~(c) ten per cent (10%) of its net electricity sales by December 31, 2025;~~
3 ~~(d) fifteen per cent (15%) of its net electricity sales by December 31,~~
4 ~~2030; and~~
5 ~~(e) twenty five percent (25%) of its net electricity sales by December~~
6 ~~31, 2035.~~
7 (b) fifty (50%) of its net electricity sales by December 31, 2035.

8 The amount of renewable capacity may be subject to engineering and
9 economic analysis by the Guam Power Authority."
