WITH FIRE HYDRANTS IN MAINA.

1 BE IT ENACTED BY THE PEOPLE OF THE TERRITORY OF GUAM:  
2 Section 1. Legislative Intent. The Legislature finds that the village

9 for the community of Maina.

1           Section 2.   One Hundred Fifty Thousand Dollars (\$150,000) are  
2   appropriated from the General Fund to the Public Utility Agency of Guam to

**AN ACT TO APPROPRIATE THE SUM OF ONE HUNDRED FIFTY  
THOUSAND DOLLARS (\$150,000) TO THE PUBLIC UTILITY AGENCY  
OF GUAM FOR THE INSTALLMENT OF WATER LINE AND FIRE  
HYDRANTS IN MAINA**

Good afternoon, Mr. Chairman and members of the Legislative Committee on Energy, Utilities, and Consumer Protection. I am here today to testify in support of Bill 119 - An Act to appropriate the Sum of One Hundred Fifty Thousand Dollars (\$150,000) to the Public Utility Agency of Guam for the Installation of Water Line and Fire Hydrants in Maina.

The MaiMai area is currently being serviced by 2" water lines and residents are frequently suffering from low water pressure. As a result, lives and properties are being exposed to constant danger from inadequate water and lack of fire hydrants for fire protection.

Relating to the above, I would like to take this opportunity to encourage members of this committee to introduce other legislation to fund similar projects throughout the island where water service problems occur. In addition, we must not forget that along with financing water systems improvements, we must make best use of our investment dollars through efficient operations and maintenance (O & M) of new facilities. In order to do so, continuous funding will need to be in place.

Again, PUAG is in full support of Bill 119. Thank you for the opportunity to testify.
