Public Law No. 27-132

- 1 (a) 'Customer-generator' means a user of a net metering system.
- 2 (b) 'Net Metering' means measuring the difference between the
- 3 electricity supplied by a utility and the electricity generated
- 4 by a customer-generator which is fed back to the utility over
- 5 the applicable billing period.
- 6 (c) 'Net Metering System' means a facility for the production of
- 7 electrical energy that:
- 8 (1) uses fuel cells, microturbines, wind, biomass,
- 9 hydroelectric, solar energy or a hybrid system
- 10 consisting of these facilities, as its primary source of
- 11 fuel;
- 12 (2) has a generating capacity of *not more than* twenty-
- 13 five (25) kilowatts;
- 14 (3) is located on the customer-generator's premises;
- 15 (4) operates in parallel with the utility's transmission
- 16 and distribution facilities; and
- 17 (5) is intended primarily to offset part or all of the
- 18 customer-generator's requirements for electricity.
- 19 (d) 'Utility' means a public utility that supplies electricity on
- 20 Guam.

21 §8503. (a) A utility shall offer net metering, as set forth in §8505

22 of this Article, to customer-generators operating within its service area.

23 (b) A utility:

- 24 (1) shall offer to make available to each of its
- 25 customer-generators who has accepted its offer for net

1 metering an energy meter that is capable of registering the
2 flow of electricity in two (2) directions;

3 (2) may, at its own expense and with the written
4 consent of the customer-generator, install one (1) or more
5 additional meters to monitor the flow of electricity in each
6 direction; and

7 (3) shall *not* charge a customer-generator any fee or
8 charge that would increase the customer-generator's
9 minimum monthly charge to an amount greater than that of
10 other customers of the utility in the same rate class as the
11 customer-generator.

12 §8504. (a) A net metering system used by a customer-
13 generator must meet all applicable safety and power quality
14 standards established by:

- 15 (1) the National Electrical Code;
- 16 (2) Underwriters Laboratories, Inc.; and
- 17 (3) the Institute of Electrical and Electronic Engineers.

18 (b) A customer-generator whose net metering system meets
19 such safety and quality standards must *not* be required by the
20 utility to:

- 21 (1) comply with additional standards or
22 requirements;
- 23 (2) perform additional tests;
- 24 (3) install additional controls; or

1 (4) purchase additional liability insurance, arising
2 solely from his status as a customer-generator.

3 §8505. (a) The billing period for net metering may be either a
4 monthly period, or with the written consent of the customer-generator,
5 quarterly, semi-annual or annual period.

6 (b) The net energy measurement must be calculated in the
7 following manner:

8 (1) The utility shall measure the net electricity produced or
9 consumed during the billing period, in accordance with
10 normal metering practices.

11 (2) *If the electricity supplied by the utility exceeds the*
12 *electricity generated by the customer-generator which is*
13 *fed back to the utility during the billing period, the*
14 *customer-generator must be billed for the net electricity*
15 *supplied by the utility.*

16 (3) *If the electricity generated by the customer-generator*
17 *which is fed back to the utility exceeds the electricity*
18 *supplied by the utility during the billing period, the*
19 *customer-generator is entitled to compensation for*
20 *electricity provided to the utility during the billing*
21 *period at a rate to be determined by the Public Utility*
22 *Commission."*

23 Section 2. The Public Utility Commission shall promulgate all
24 necessary rules and regulations for the implementation of the program within
25 one hundred twenty (120) days upon the enactment of this Act.

1 **Section 3. Severability.** *If* any of the provisions of this Act or the
2 application thereof to any person or circumstance is held invalid, such
3 invalidity shall *not* affect any other provision or application of this Act which
4 can be given effect without the invalid provision or application, and to this
5 end the provisions of this Act are severable.
